Paper 2 Practical

February/March 2026**MARK SCHEME**Maximum Mark: 90

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the February/March 2026 series for most Cambridge IGCSE, Cambridge International A and AS Level components, and some Cambridge O Level components.

This document consists of **8** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptions for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Annotations guidance for centres

Examiners use a system of annotations as a shorthand for communicating their marking decisions to one another. Examiners are trained during the standardisation process on how and when to use annotations. The purpose of annotations is to inform the standardisation and monitoring processes and guide the supervising examiners when they are checking the work of examiners within their team. The meaning of annotations and how they are used is specific to each component and is understood by all examiners who mark the component.

We publish annotations in our mark schemes to help centres understand the annotations they may see on copies of scripts. Note that there may not be a direct correlation between the number of annotations on a script and the mark awarded. Similarly, the use of an annotation may not be an indication of the quality of the response.

The annotations listed below were available to examiners marking this component in this series.

Annotations

Annotation	Meaning
Off-page comment	Allows comments to be entered at the bottom of the RM marking window and then displayed when the associated question item is navigated to.

Task	Answer	Marks
1(a)	Data Dictionary	
	Appropriate table name identified e.g. Product/Products	1
	Appropriate layout for data dictionary	1
1(b)	Field names as given	1
	Product code as primary key	1
1(c)	ProductCode, Manufacturer, ProductType, Model, Chipset, Memory fields with data type alphanumeric/text	1
	Socket field with data type alphanumeric/text	1
1(d)	SpeedInGHz data type numeric ...	1
	... set as floating point/real number/decimal	1
	Slots, Cores, Threads data types numeric ...	1
	... set as integer	1
1(e)	At least 1 appropriate validation routine	1
	At least 1 appropriate field length	1

Task	Answer	Marks
2(a)	Database	
	Created with filename RCS_ZZ999_9999	1
	4 data tables created	1
2(b)	Products table	
	Appropriate table name matches data dictionary .e.g. Product/Products	1
	Alphanumeric fields match data dictionary	1
2(c)	ProductCode is the primary key field	1
	SpeedInGHz field is numeric and decimal	1
	Slots, Cores and Threads fields are numeric and integer	1
	Price is set as currency ...	1
	... with 2 dp	1

Task	Answer	Marks
2(d)	At least 1 appropriate validation routine	1
	At least 1 appropriate field length	1
2(e)	Customers table	
	Appropriate table name e.g. Customer(s), Client(s)	1
	Correct 10 fields only	1
2(f)	Title and customer name data split into different fields ...	1
	Customer names/title split into atomic data (3 fields) ...	1
	Title and 2 name fields have appropriate field names	1
2(g)	CustID field set to primary key	1
	CustID data type is integer or text	1
	All other fields alphanumeric	1
2(h)	Discount table	
	Appropriate table name	1
	Discount table has correct 2 fields only ...	1
	... identified as being duplicate data in original data file	1
	Only 3 records	1
2(i)	DiscountCode set to primary key	1
	Appropriate field names	1
	DiscountRate field is numeric and decimal	1
2(j)	Orders table	
	Appropriate table name ...	1
	Correct 5 fields +ID field only	1
	ID (or similar) field set to primary key ...	1
2(k)	Appropriate field names	1
	OrderNo, ProductCode and DiscountCode are alphanumeric/text	1
	Quantity field is numeric	1

Task	Answer	Marks
2(l)	Relationships	
	Customer.CustID to Orders.CustID ...	1
	... one to many	1
2(m)	Products.ProductCode to Orders.ProductCode ...	1
	... one to many	1
2(n)	Discount.DiscCode to Orders.DiscountCode	1
	... one to many	1

Task	Answer	Marks
3(a)	Database report	
	Report exported as Step3_ZZ999_9999.pdf	1
	... landscape orientation	1
	... fits to 1 page wide	1
	Appropriate title including candidate details	1
3(b)	10 labels as shown	1
	Only 3 company names addresses and zip code fields visible with no individual data.	1
	Report grouped by company name then order number	1
	Company name, address and zip code in the company group header	1
	Only product code, manufacturer, product type, model, quantity, price and discount rate in the detail row	1
3(c)	Discount rate field formatted as % with 0dp	1
	Calculated control for Product Price in detail row ...	1
	... with correct calculation for all records	1
	... displayed as correct currency (matches price field)	1
	... with 2 decimal places	1

Task	Answer	Marks
4(a)	Video desk1.mp4	
	Aspect ratio set to 16:9	1
	Clip trimmed to start after 2 seconds	1
	Clip trimmed to 16 seconds long	1
	All audio removed from the clip	1
	Exported as desk1_ZZ999_9999.mp4 with width 852 and height 480	1
4(b)	Desk1 screenshots	
	Screen shot of first frame saved as bg1.png	1
	Screen shot of last frame saved as bg2.png	1

Task	Answer	Marks
5(a)	Video file RCSvideo	
	0 seconds: bg1.png as background	1
	RCS new desks by A Candidate placed at top right...	1
	... in appropriate size, sans-serif, with a red font	1
	... wrapping as shown and right aligned	1
	Audio track m26voice.mp3 starts.	1
5(b)	4 seconds	1
	Background remains but all text is removed	1
5(c)	6 seconds	1
	Background remains and The sitting/standing desk placed at top right of screen ...	1
	... in the same style as the title and remains until 12 seconds	1
5(d)	12 seconds	1
	Video desk1.mp4 starts ...	1
5(e)	Video file RCSvideo	
	End of video: bg2.png set as background for credits ...	1
	Credits scroll up the screen	1

Task	Answer	Marks
5(f)	Credits include: Video edited by: candidate details	1
	... video by TMBvideo	1
	... audio by Karla Marie	1
	Credits appropriate colour selection, easily read, good contrast	1
5(g)	Whole video exported as RCSvideo_ZZ999_9999.mp4	1
